

Julie Smith's Misinformation Resources

Fact Checkers:

Media Analytics:

Social Media Analysis:

Website Verification/Analysis:

Sites enable users to enter a URL and learn of the host's activities generated during browsing; offer reverse look-up services on IP or URL addresses, and identify other domains hosted by the same server.

Games and Learning Tools:

Quiz game challenging players to distinguish facts from fiction.

Students read articles, then choose which are fact and which are fiction.

Players create fake news and try to cause disruption and chaos.

Players learn to distinguish credible information from non-reliable sources.

Image/Video ID and Analysis:

Sites enable users to enter an image or video and see an analysis of its technical make-up, authenticity, identification of persons, places or objects in the image, image origin, and evidence of any digital manipulation.

Education and Teaching Tools:

A non-partisan national organization providing programs and resources for educators and the public to teach, learn and share the tools needed to be smart consumers of news and information, and educated participants in a democracy.
